Subject: AK Steel 14-day sampling results
Attachments: AK Steel Benzene-OH_7.20.18 .docx; Summary07.20.18.xlsx

Here is a summary map and spreadsheet for the 14-day AK steel ambient air monitoring data. The data in the shaded boxes represents the samples collect by consultants for AK steel. The average concentration for each monitoring location is below acute screening levels for human health effects. Let me know if you have questions.

Thanks,

Diane B. McClure
